MarineNav builds tough, true marine-grade displays capable of performing in the harshest environments on earth.

Internationally known for their quality and reliability, our displays are precision built from high strength marine-grade aluminum and finished in salt rated, UV protected powder coating inside and out. Developed to suit a variety of vessels from climate-controlled luxury yachting to more demanding IP65 rated open flybridge military/naval applications and everything in between, there is a MarineNav display suitable for your needs.

The CG Elite Series is our premium class of marine-grade LCD displays featuring optical bonded resistive touchscreen technology that performs even with gloves on. Seeing is believing with our high bright sunlight-readable display. Standard features include one-touch input selection, dedicated backlit front controls that are easy to see and use, and one-touch red monochrome night mode ideal for low light conditions. All MarineNav displays come with a two-year warranty (2nd year with product registration).*

The CG Elite Series displays are available in 12", 15" and 19" sizes and offer several options including enhanced brightness, front and/or rear IP 65 water-resistance, and composite inputs.

CG Elite 19 Features

- 1000 nits brightness (upgradeable)
- 1 VGA, 1 HDMI, 1 DVI, 2 composite
- Optical bonded resistive touchscreen
- Sunlight-readable performance
