Pricing in USD \$. Pricing subject to change without notice*

Neglecting regular servicing of your ROV could mean costly future repairs, and may nullify your Oceanus warranty. MarineNav ROV service is performed by qualified staff and our service packages will ensure your ROV is operating to optimal levels.

Comprehensive Service Package*

Recommended within 100 hours of operation or every 12 calendar months (whichever comes first)

- Complete strip down of ROV to component level, full inspection and service as required
- Replacement of consumable ROV parts including; O-rings, props, domes, skids and fasteners as required
- Full burn-in testing (dry and wet tests)
- Pressure test of ROV submersible

- Software updates
- Tether whip, tether testing and servicing
- Topside unit reconditioning

* Service package pricing does not include the cost of major replacement parts or tether re-termination. Additional costs not covered by service packages will be outlined within a provided Engineers Report prior to proceeding. All service package pricing is in US denomination and do not include applicable shipping or taxes. Contact a MarineNav representative for more details.

All MarineNav Oceanus ROV systems ship with a standard one (1) year warranty. Perform scheduled service as recommended to ensure the warranty remains valid. If a Comprehensive Service Package is purchased within the first year of purchase, MarineNav will extend the warranty to two (2) years.

While we strive to ensure the accuracy of all items and descriptions in this document, this is not always possible. Specifications, options, and availability subject to change with out notice. Errors and omissions excepted. We reserve the right to limit quantities.
