D-001_ROV_HC_Hull_Crawler_2026-PR1

Designed by MarineNav and manufactured on-site, the Pro ROV HC2 Hull Crawler is easily attached to the ROV float block minimizing potential damage that may occur from contact with a vessel during a hull inspection. A hard protective plate and five wheels allows the Pro ROV to make contact and glide across the vessel surface in a sustained, controlled manner, minimizing sudden bumps or movements which could impede inspections.

Pro ROV HC2 Hull Crawler Measurements

Key Features

Designed, engineered and manufactured on-site, MarineNav ROV accessories are hand-assembled to exacting standards. MarineNav HC2 Hull Crawlers ship fully assembled with all necessary mounting fasteners.

- Manufactured from durable high-density polyethylene with acetal wheels and stainless steel fasteners
- Integrated design provides quick and easy installation requiring a minimum of tools

** Hull Crawler ROV attachments are also available for the Oceanus Mini and Ultimate ROVs. Contact MarineNav for specifications and current pricing.*

While we strive to ensure the accuracy of all items and descriptions in this document, this is not always possible. Specifications, options, and availability subject to change with out notice. Errors and omissions excepted. We reserve the right to limit quantities.
